

Care

That Never Sleeps™

We stay awake all night,
SO YOU CAN SLEEP EASIER

Introducing a higher level of superior quality care – Great Lakes nurses in our office with access to all patient records, available to help patients 24 hours a day, 7 days a week.

No other home health care agency comes close to providing this level of commitment, 24/7/365. If something unexpected happens in the middle of the night, you can be confident knowing that you will not be left waiting in the dark.

Care That Never Sleeps™ is the latest step we have taken to ensure

superior quality care in the comfort, security and privacy of our patients' homes. We are always at our desks to answer patients' calls anytime, day or night, weekends or holidays. Great Lakes nurses are on-duty, not just on-call.
